

FAST & EASY

Find your **perfect ring size**

METHOD A

Do you already have a ring that fits you perfectly but you don't know the size? No problem – just measure the **inner diameter of your ring** and you'll already know the ideal measurements.

EU	50 mm	52 mm	54 mm	56 mm	60 mm	62 mm	64 mm	66 mm
GB	S	T+1/2	V	X	K	L+1/2	N	P
USA	9.1 (9)	9.9 (9-)	10.7 (10-)	11.4 (11)	5.3 (5)	6.1 (6)	6.8 (6-)	7.6 (7-)
FR/IT	20	22	24	26	10	12	14	16

METHOD B

To do this you need: A piece of string & a ruler

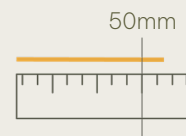

Tip! Instead of a string, a strip of paper or a tape measure also works.

This is how it works:

1. Wrap the string around your finger and mark the spot, where the string meets itself.

2. Now measure the piece of string to determine the perfect ring size
